

**Date: 12 March 2021**

**RE: Sotera Health Acquires BioScience Laboratories to Enhance Nelson Labs Services**

**To Whom It May Concern,**

This letter is to inform customers and vendors of the following changes to our organization:

**SOTERA HEALTH ACQUIRED BIOSCIENCE LABORATORIES – NO OTHER CHANGES TO THE ORGANIZATION HAVE BEEN MADE**

Sotera Health, the parent company of Nelson Labs and a leading global provider of mission-critical sterilization and lab-testing and advisory services for the healthcare industry, announced that it has acquired BioScience Laboratories, a Bozeman Montana-based outsourced provider of laboratory testing for manufacturers of consumer, healthcare, and pharmaceutical products. BioScience Laboratories will become a part of Sotera Health's Nelson Labs business unit.

For a copy of the full announcement, please visit <https://www.nelsonlabs.com/news/acquisition-of-montana-based-bioscience-laboratories/>

Also, at this time BioScience Laboratories has changed its legal entity and name from BioScience Laboratories, Inc. to Bioscience Laboratories, LLC. This represents one of the first steps of their integration into the Nelson Labs Family.

With the BioScience Laboratories name change, a new W-9 form may be required—[click here](#) for a new W-9 form showing the name change. Please make sure your purchasing or vendor management group is aware of this name change.

*Accreditations and certifications for the laboratory remain unchanged. There are no additional changes to the systems, processes, or tests at Nelson Labs as a result.*

**We look forward to continuing to provide you the best in laboratory services and to deliver on our mission of Safeguarding Global Health®.**

Matthew D. Cushing  
Vice-President, Global Quality & Science  
Nelson Labs, LLC
