Relevance of a Small Volume Parenteral Symposium

- **The SVP market**
 - Large segment for drug delivery
 - Broad use of SVP packaging
 - Growing, also used for most new treatments (Gene therapy, immune therapy, etc).
- **A lot of development in the SVP space**
 - New materials
 - New types of packaging
 - New types of administration
- **Multi Disciplinary** (Analytical chemistry, Materials Science, DP manufacturing, interaction between drug & materials, Toxicology etc.)
- **Evolving** regulatory environment
- **Complexity**

=> *Nelson Labs considers knowledge sharing & training a vital part of our mission!*

Enjoy the Symposium !!!

THANK YOU
